

The following reflects the media research conducted to determine if the recreation of the Goodwill Tour is newsworthy to the 80 cities along the route. A mass email was sent to each newspaper and any local affiliates of ABC, CBS, NBC or Fox News that covers each city's viewing area. An extensive list of each city's news media was made and emails were sent to the newsroom, news director, or reporter of each city. The chart shows which cities have expressed an interest in covering the tour when arriving in their city. Each news media was given a brief explanation of the tour and was asked to express their interest in covering the story, thus deeming the Remembrance Goodwill Tour newsworthy to its readers or viewers. The media in each city voiced a common reaction to the email/fax; they will not guarantee coverage, however expressed an interest in covering the Remembrance Goodwill Tour under normal news day conditions.
